

# Fixing a Jammed Paper-Roll in your Brother PT-90 Personal Labeler

This guide will teach you how to fix a jammed paper-roll in your Brother PT-90 Label-Maker.

Written By: Kaitlyn Abrams

## TOOLS:

- [iFixit Opening Tools](#) (1)
-

## Step 1 — Fixing a Jammed Paper-Roll in your Brother PT-90 Personal Labeler

- Turn your label-maker on its face. Using your thumb, press in and then upward on the fastener located on the side of your device.

## Step 2

- Remove the batteries from your device.

## Step 3

- Using a plastic opening tool from your iFixit tool kit, leverage the label cartridge out of your device.

## Step 4

- Press the label paper back into alignment with the small holders on the right side of the label cartridge.

## Step 5

- Place the label cartridge and batteries back into your device. Refasten the bottom case of the label-maker.

## Step 6

- Well done! You have successfully corrected the paper-jam in your Brother PT-90 Label-Maker.

To reassemble your device, follow these instructions in reverse order.
